* *Be Responsible*

Hello TMS Families,

Happy New Year!!

We successfully closed up Semester 1 and are now into the second Semester! Wow! I hope all our families are doing well, staying safe and healthy. As I am sure you are all aware, Sonoma County is still in the purple tier for COVID cases, which means we aren't able to get back on campus. As a district we are watching the status carefully and as a site, we have a hybrid plan to bring students back to campus if and when we are able to. I am very proud of our students and families for the time, patience and perseverance you have all put into making distance learning as practical as possible.

Thank you!

Take care,
Ms. McKenna

Important Information:

Attendance

Keep up the good work! Overall, our school has a very positive attendance rate during distance learning. This is so important because no matter what our learning environment is at the time, all students need to continue learning to build upon their skills and be ready for next year! Please note that if your child has their camera and volume off and they are not responding to the teacher verbally or through the chat, they will be marked absent. We need to know they are present and learning.
